Engineering degree in software and mobile engineering *Ariana, Tunis*

HIGHER INSTITUTE OF ARTS AND MULTIMEDIA MANOUBA **Sep 2018 – Jun 2021**
Bachelor of Science in Computer Science *Manouba, Tunis*

Relevant Coursework

- Data Structures
- Software engineering
- Project management
- Web Development
- UML
- Database Management
- Systems Programming
- Mobile Development

Projects

UNI-WORLD | *Kotlin, Jetpack compose, Swift, SwiftUI, JavaScript, Node .JS, MongoDB, GIT* **September 2024**

- Built an Android application for students, giving them access to a wide range of useful features such as meeting people, and finding carpooling offers and courses
- Implemented new and trading technologies such as Jetpack compose and node .js
- Created a secure system to protect users data using JWT, encrypting, limiting response data, etc

CODE MAGICIAN | *Flutter, Node .JS, Express .JS, Mongo DB, Python, Swagger, MVC, GIT* **June 2023**

- Built a robust desktop application that automates converting class diagram images or PDFs into a fully functional Node.js backend project, saving developers hours of manual coding and setup.
- Selected as one of the top 18 projects out of 245 projects at my university.

CrowdUp | *Flutter, Java, Spring Boot, Swagger, MVVM, SCRUM* **June 2023**

- Created a cross-platform social network for event lovers so they can create , participate and share events.

TOGTOG MARKETPLACE | *Kotlin, Node .JS, Express .js, MongoDB, Jira, GIT* **December 2022**

- Developed an innovative AI-powered clothing marketplace that revolutionizes the online shopping experience by enabling users to virtually try on outfits before purchasing, enhancing customer confidence and reducing returns.

Technical Skills

Programming Languages: Java, Kotlin , Swift,JavaScript, PHP , SQL , NoSQL
Developer Tools: Android Studio, VS Code, Xcode, IntelliJ IDEA , Eclipse, Trello, GIT, Jira
Technologies/Frameworks: JetPack compose, Node .js, SwiftUI, Flutter, Spring Boot, .NET
Familiarity and Knowledge: JSON, XML, MVC, MVVM, GSON, Clean Architecture, Socket .io, Android architecture libraries [Navigation, LiveData, DataBinding, ...] , Retrofit, Room , Android Lifecycle Component, Object-Oriented Programming, Design Patterns , RESTful API , Kotlin Coroutines, Agile (Scrum), GitHub, JUnit, Espresso
